The "8" in the middle of the date was likely intended as "5" for 956. First series of Chittagong trade coinage.

1101. **CHITTAGONG: Sher Shah Suri**, 1538-1545, AR tanka (11.14g), AH947, G-B1000, De-1, Nagari text below obverse, several punchmarks, nice F-VF, R \$130 - 170

1105. **CHITTAGONG: Muhammad 'Adil Shah**, AR tanka (10.43g), NM, AH957, G-B1002, Mitch—. De-3, nice strike with no weakness, VF-EF, R, ex John Deyell Collection \$140 - 180

1106. **CHITTAGONG: Bahadur Shah**, in Bengal, 1555-1560, AR tanka (10.55g), NM, AH959, G-B1004, broad flan, assigned by Goron to mint of Ramu (near Cox's Bazar south of Chittagong), lovely strike, nice EF, RR ex John Deyell Collection \$250 - 350

These types of Chittagong tankas are thought to be a trade coinage of sorts. Many of the the coins are either in the names of Suri or Bengal sultans. They are of crude calligraphy and manufacture and are usually found in the Chittagong and Comilla areas.

1107. **CHITTAGONG: Bahadur Shah**, AR tanka (9.31g), NM, AH959, G-B1009, Mitch-LW.282. De-11(a), nice strike, pleasing VF-EF, **RR**, ex John Deyell Collection \$150 - 200

Shahada only in reverse field.

1110. **CHITTAGONG: Bahadur Shah**, AR tanka (9.83g), NM, AH956, G-B1009, Mitch-LW.281, same obverse die as the Mitchiner specimen, 3 banker's marks, pleasing F-VF, **RR** ex John Deyell Collection \$140 - 180

Same obverse die as the Deyell plate specimen. Arabic al-sultan b. al-sultan (misspelled) beneath shahada on reverse. The name mahmud in the 2nd obverse line is presumably an error for muhammad.

1111. **CHITTAGONG: Bahadur Shah**, in Bengal, 1555-1560, AR tanka (9.42g), NM, AH958, G-B1010. Mitch-LW.282. De-11, 3 banker's marks, nice F-VF, **R**, ex John Deyell Collection \$150 - 200

1112. **CHITTAGONG: "The four caliphs"**, mid-1550s, AR tanka (9.33g), NM, ND, G-B1007, Mitch-LW.286 (this piece). De-8 (this piece), in the names of the four Rashidun caliphs (Abu Bakr, 'Umar, 'Uthman and 'Ali), each name preceded by the title Shah (!), a few scratches, VF, **RRR** \$350 - 450

1114. **CHITTAGONG: Jalal Shah**, AR tanka (10.35g), NM, AH971, G-B1011, Mitch-LW.284var. De-11/12, single horizontal line beneath the shahada, *al-sultan al-'adil* below, clear date, Fine, **RRR** \$140 - 160

1115. **CHITTAGONG: Jalal Shah**, AR tanka (10.00g), NM, AH981, G-B1005var, Mitch-LW.292 (this piece). De-7(b) (this piece), only the shahada in reverse square, some scratches, VF, **RRR** \$200 - 300

Type unlisted by Goron.

1116. **CHITTAGONG: Sikandar Shah b. Zafar**, 1571-1593, AR tanka (10.28g), AH983, G-B1012 (this piece), Mitch-LW.300 (this piece). De-16 (this piece), Sikandar Shah was the Muslim name for Min Palaungm, superb strike (valued by Mitchiner at £1500), lovely VF-EF, **RRR**, ex John Deyell Collection \$800 - 1,000

1117. **CHITTAGONG: Adam-Humayun**, ca. 1575-1586, AR tanka (9.05g), ND, Mitch-LW.295/297, G-B1008, much porosity, Fine, RR, ex Eck Prud'homme Collection \$200 - 250

Adam-Humayun was Adam Shah, the Arakanese governor of Ramu and Charkaria under Min Palaung of Arakan.

1118. **CHITTAGONG: Adam Humayun**, ca. 1575-1586, AR tanka (9.04g), NM, ND, G-B1008, Mitch-LW.295/297, De-9, Bengali trade coinage, in the name of Adam Humayun, crude EF, R \$350 - 450

1119. **CHITTAGONG: Adam Humayun**, ca. 1575-1586, AR tanka (10.38g), NM, ND, G-B1008, Mitch-LW.297, 3 pellets above 'n' of Humayun, lovely strike, one of the finest examples of this ruler, VF-EF, RRR \$600 - 700

Same obverse die as Mitchiner-297.

1120. **CHITTAGONG: Adam Humayun**, ca. 1575-1586, AR tanka (9.95g), NM, ND, G-B1008, Mitch-LW.295/296, 3 pellets above 'n' of Humayun, VF, RRR \$400 - 500

1121. **CHITTAGONG: Vamar**, ca. 1580-1586, AR tanka (10.32g), NM, AH988, G-B1017, Mitch-LW.305. De-15, *al-sultan al-'adil* in one line atop obverse, some weakness, EF, RRR \$300 - 400

Same obverse die as Mitchiner-305 (=Deyell 15).

1122. **CHITTAGONG: Vamar**, ca. 1580-1586, AR tanka (10.11g), NM, AH983, G-B1018, Mitch-LW.306var, De-14, *al-sultan al-'adil* divided in two lines atop obverse, amazing strike, very clear date, same obverse die as the Deyell plate specimen, EF, RRR \$550 - 650

Goron lists this type as #B1014, which is a repetition of an issue of Sikandar, probably just a typo for B1018. If the year AH983 is correct, then Vamar would have been in some control by 1575 or 1576. The date could conceivably be a "typo" for AH993, which fell completely within the AD date 1585.

1123. **CHITTAGONG: Vamar**, ca. 1580-1586, AR tanka (10.50g), NM, AH"779", G-B1018, Mitch-LW.306, a *l-sultan al-'adil* divided in two lines atop obverse, minimal weakness, VF-EF, RRR \$400 - 500

Date very clearly written as 779, but undoubtedly intended for 988; i.e., retrograde and with the two 8's upside down. Goron lists this type as G-B1014, which is a repetition of an issue of Sikandar, type G-B1018.

1124. **CHITTAGONG: undetermined name**, 16th century, AR tanka (10.60g), "Fathabad", AH"993", G-B1020 (this piece), Mitch—, Goron suggests that the date is an error for AH939, when the Arakanese briefly occupied the Bengali city of Fathabad, fabulous strike., nice VF-EF, RR \$300 - 400

Most of the Persian text is blundered and unreadable, but the design above the reverse represents the Arabic text kafi Allâh ("God sufficeth"). Same obverse die as illustrated specimen for B1020.

1125. **CHITTAGONG: Selim Shah**, 1593-1612, AR tanka (10.39g), NM, BE955, G-RA2 (this piece), Mitch-LW.316 (this piece), trilingual, citing the ruler as Selim Shah in Persian, Chalim Saha in Bengali, and Sawleim Shah in Arakanese, bold strike, EF, RR \$350 - 450

Selim Shah's Arakanese name is Min Razagyi.

1126. **CHITTAGONG: Selim Shah**, governor of Chittagong, after 1599, AR tanka (10.12g), NM, BE963, G-RA3, Mitch-LW.328/331, trilingual, citing the ruler as Salim Shah in Persian, Salim Saha in Bengali and Sawleim Shah in Arakanese, touch of weakness, VF, **RRR** \$300 - 360

Persian text misread by both Goron & Mitchiner, but I cannot offer a reading for the 2nd line. The 3rd line is clearly salim shah sultan as read by both authors.

1127. **CHITTAGONG: Selim Shah**, governor of Chittagong, after 1599, AR tanka (10.29g), NM, BE963, G-RA3var, Mitch—, trilingual, citing the ruler as Salim Shah in Persian, Salim Saha in Bengali and Sawleim Shah in Arakanese, much weakness, same obverse die as item #102725, VF, **RRR** \$300 - 400

Selim's Arakanese name was Min Razagyi. Different Persian text than G-RA3 or Mitchiner-328/331, but the same Selim Shah is confirmed in both the Arakanese and Bengali text, with the name Selim partly off flan.

1128. **CHITTAGONG: Islam Shah**, governor of Chittagong, 1595-1597, AR tanka (9.87g), NM, BE959, G—, Mitch-LW.319/320, trilingual, citing the ruler as Islam Shah in Persian, Ichalam Saha in Bengali and uncertain in Arakanese, nice even strike, bold VF, **RRR** \$450 - 550

Islam Shah was the son of Selim Shah, perhaps his second son, Min Man Gyi (in Arakanese).

1129. **CHITTAGONG: Islam Shah b. Naradibbati**, fl.1597, AR tanka (9.82g), NM, BE959, G-CG2, Mitch-LW.320, Arabic, Nagari & Arakanese script, Naradibbati was king of Arakan, nice F-VF, **RR** \$300 - 380

1130. **CHITTAGONG: Halal Shah**, governor of Chittagong, 1597-1599, AR tanka (10.26g), NM, BE960, G-CG4, Mitch-LW.324, trilingual, citing the ruler as Halal Shah in Persian, Hinan Saha in Bengali and just "Maha" in Arakanese, VF-EF, **RRR** \$350 - 450

Same obverse (Arakanese) die as Mitchiner-324.

1131. **DELHI: Tughluq**, 1320-1325, AV tanka (10.83g), Dar al-Islam, DM, G-D300, rare mint for this ruler, lightly crinkled, F-VF, **RR** \$550 - 750

1132. **DELHI: Muhammad III**, 1325-1351, AV dinar (12.66g), Hadrat Delhi, AH727, G-D334, Fine \$600 - 800

The dinar of Muhammad bin Tughluq weighs 1/6 more than his standard mohur, and was issued briefly during the early part of his reign.

1133. **DELHI: Muhammad III**, 1325-1351, AV tanka (10.98g), Delhi, AH744, G-D427, in the name of the Egyptian Abbasid caliph al-Mustakfi, but struck after the caliph's death in AH740, F-VF \$520 - 600

Mughal Empire

1134. **MUGHAL: Humayun**, 1530-1556, AR light shahrukhi (3.89g), Qandahar, ND, A-G2464, KM—, usual weakness of strike, choice EF, **RR** \$180 - 220

1135. **MUGHAL: Humayun**, 1530-1556, AR shahrukhi (4.68g), Na(rnol), AH963, KM—, Zeno-115542, very rare mint, only partly visible, clearly showing on Zeno-115542 specimen, probably once mounted, but text not affected and fully legible, VF, RRR \$350 - 450

In 1974, a hoard of gold coins was discovered along the riverbank near the city of Akola. It is believed the mohurs represented military pay sent from the mint at Surat to Mughal troops fighting near Golkonda. As the story goes, the courier rested with the troops at night in the dry riverbed. Suddenly premature monsoon rains filled the area and swept away the caravan - and with it the whole gold mintage of the Surat mint for that year. Perhaps this tale was invented to conceal what really had happened, most likely either loss or theft or some other egregious activity.

Until 1857, the coinage of Jaipur followed purely Mughal tradition, citing only the Mughal emperor and Hijri date on the obverse, the standard mint formula and regnal year on the reverse. Thereafter, the local maharaja placed his name on the reverse, and cited the British king or queen on the obverse.

Unpublished date, but struck from the same reverse die as the gold mohur illustrated in KM (thus the mohur is also dated AH1227). Probably unique in silver.

1267. **KOTAH: Ram Singh II**, 1828-1866, AR nazarana rupee, Nandgaon, year 6 (1842), Cr-32a, in the name of Muhammad Bahadur II (incorrect attribution on the slab), NGC graded MS64 \$300 - 350

The mint name is pseudo, but the dies so large that it is rarely legible on the actual coins, even the full rupee. The coins were actually struck locally at Kolhapur.

1273. **MYSORE: Tipu Sultan**, 1782-1799, AR paisa (10.96g), Khaliqabad, AM1215, KM-83, elephant left, two test scratches on obverse, excellent strike, very slightly porous on both sides, VF, RR \$150 - 180

The quarter paisa is reasonably common for the mint of Khaliqabad. The half paisa and especially the full paisa are truly rare, especially in even halfway decent grade.

1274. **MYSORE: Tipu Sultan**, 1782-1799, AR paisa (11.42g), Khurshed-Sawad, AM1218, KM-93, elephant left, bold well-centered strike, one of the finest we have seen for this mint, EF, R \$180 - 200

1279. **NAWANAGAR: Vibhaji**, 1852-1894, AR 5 kori, VS1947, KM-23, brilliant proof like luster, NGC graded MS66 \$320 - 400

An amazing quality for this type. This piece was perhaps intended as a specimen or presentation issue.

1280. **PATIALA: AR medal** (26.24g), 37.2mm, Silver Jubilee medal (1925), inscribed *jashan-e nuqrai* in Hindi, Urdu and Gurmukhi script, with two busts on obverse, including the maharaja Bhupinder Singh, with attached hanger, VF, R \$120 - 160

AD date backwards.

1288. **RADHANPUR: Bismilla Khan**, 1874-1895, AR 8 annas (5.72g), Radhanpur, 1881 & AH1299, KM-24, also citing Queen Victoria, reeded edge, relatively little weakness for this type, EF, R, *KM plate specimen* \$200 - 250

1289. **RADHANPUR: Bismillah Khan**, 1874-1895, AR rupee (11.28g), Radhanpur, 1880 & AH1297, KM-27, broad flan, some weakness, Fine \$120 - 150

1290. **RADHANPUR: Bismilla Khan**, 1874-1895, AR rupee (11.66g), Radhanpur, 1880 & AH1298, KM—, also citing Queen Victoria, reeded edge, superb strike without any weakness, choice EF, R \$300 - 350

1291. **RADHANPUR: Bismilla Khan**, 1874-1895, AR rupee (11.69g), Radhanpur, 1881 & AH1299, KM-28, also citing Queen Victoria, reeded edge, minimal weakness for type, bold VF, R *KM plate specimen* \$180 - 220

1292. **RADHANPUR: Bismilla Khan**, 1874-1895, AR rupee (11.46g), Radhanpur, 1893 & AH1311, KM-28, also citing Queen Victoria, coarsely reeded edge, some weakness, nice VF, R *KM plate specimen* \$100 - 140

1293. **ROHILKHAND: AR rupee** (11.07g), Mustafabad, AH1184 year 12, KM-126.1, in the name of Shah Alam II, EF, R \$140 - 180

1294. **ROHILKHAND: AR rupee** (10.71g), "Shahjahanabad", AH12(08) year 35, KM—, in the name of Shah Alam II, Nagari *ram* in obverse field, based on the *sahib qirani* obverse legend introduced by Shah Alam II at Shahjahanabad (Delhi) in AH1202 and used until the end of his reign in 1221, somewhat harshly cleaned, bold VF, RR \$300 - 500

The attribution to the Rohilkhand is tentative, and it may have been issued by supporters of the Nawab of Awadh or some local officials who feared inscribing the coin with the actual mint name. It is possible that "Ram" refers to the city of Rampur, about 60 miles due east of Delhi and the last holdout of the Rohilla Khans (until about 1860). A similar example, same year, sold at Baldwin's Auction 40, Lot 849, at about \$535 (May 2005) (it was assigned to the Marathas for that auction, also a remote possibility).

1295. **SHAHPURA: AR rupee** (10.80g), AH1178 year 6, Cr-22var, in the name of Shah Alam II, early style for this feudatory of Mewar, F-VF, RR \$100 - 150

1296. **SIKH EMPIRE: AE 1/4 anna** (7.09g), Amritsar, VS[18]96, KM-5, Herrli-01.31.11, *pa anna nanakshahi* type, legends in Persian, VF, R \$150 - 200

Herrli divided these into a paisa (=1/4 anna) and half paisa (11-12g, and 5.5g, respectively), but all coins are inscribed pa anna for 1/4 anna, and all weigh in the range of 6.5g to 8.2g; thus there is only one denomination for this type.

1297. **SIKH EMPIRE:** AR ½ nanakshahi rupee (5.59g), Amritsar, VS[18]98, KM-19.2, Herlli-01.11.05, VS1885 series, bold strike, lovely EF, **RRR** \$800 - 1,000

1298. **SIKH EMPIRE:** AR nanakshahi rupee (11.15g), Amritsar / Mehta? VS(18)43 year 318, KM-A20.3, Herlli-01.05.04, mismatched date (should be year 316 for VS1843), both dates boldly clear, unpublished, bold VF, **RRR** \$400 - 500

The reverse of this piece is sufficiently off center to reveal the extra word above the mint name Amritsar, and it has been suggested that it reads mehta for the city by that name located about 20 miles away from Amritsar, a location of considerable importance for the Sikh Empire at the time this coin was struck.

1299. **SIKH EMPIRE:** AR nanakshahi rupee (10.96g), Amritsar, VS1857, KM-20.1, Herlli-01.07.04, with sun-face ornament within the L of akal, 1 tiny testmark, pleasing VF, **S** \$100 - 120

1302. **SIKH EMPIRE:** AR nanakshahi rupee (11.15g), Amritsar, VS1901, KM-22.6, Herlli-01.12.04, VS1885 series, with chattra in obverse center, lustrous AU \$100 - 120

1303. **SIKH EMPIRE:** AR nanakshahi rupee, Amritsar, VS1903, KM-22.8, Herlli-01.12.04, VS1885 series, with flag in obverse center, VF, **R** \$250 - 350

1304. **SIKH EMPIRE:** AR nanakshahi rupee (11.09g), Amritsar, VS1904, KM-22.9, Herlli-01.12.04, VS1885 series, with Gurmukhi "sate" under chattra, lovely bold strike, EF-AU \$150 - 200

1306. **SIKH EMPIRE:** AR nanakshahi rupee (11.03g), Amritsar, VS1905, KM-22.10, Herlli-01.12.04, VS1885 series, lazy "W" below chattra, lovely bold strike, choice EF \$120 - 160

1307. **SIKH EMPIRE:** AR nanakshahi rupee (10.86g), VS1881, KM—, Herlli—, generally in the style of Amritsar, but with an unread mint name in the upper panel of the reverse, bold strike, VF-EF, **RRR**, ex *M.H. Mirza Collection* \$500 - 700

Lala Ram Saran Dab was a member of the First Council of State (1921), the Second Council of State (1926), the Third Council of State (1930-1936), and the Fourth Council of State, elected to represent the Punjab.

The title Rai Bahadur or Rai Sahib, accompanied by a Medal, was awarded by the British Government to Indians with distinguished service or for meritorious performance of duties on behalf of the Government or as personal distinction. Bahadur means 'brave', Sahib means 'master' and not many Indians qualified for this honor that was much coveted, celebrated and considered as great recognition and matter of prestige by the family, district and state to which the individual belonged. Rai Bahadur ranked higher than Rai Sahib. The Medal recipients included government officials (railways, post, police, judiciary, etc.), civil servants, prominent businessmen and citizens. The titles Rai Bahadur and Rai Sahib were mainly awarded to Hindus, sometimes to Christians. For Muslims, the corresponding title was "Khan Bahadur and Khan Sahib" and for Sikhs it was "Sardar Bahadur and Sardar Sahib". A variant of the term 'Rai' was 'Rao' used for honoring South Indians and those from Maharashtra. Image size reduced.

Most known gold baht pieces are of the official restrikes produced during the reign of Rama V, according to the research of Krisadaolarn & Mihailovs, Siamese Coins, p. 139. Mihailovs suggests that they were produced at some time between about 1870 and 1890.

In 1837 a new series of large heavy cash (phan or van) coins were begun. They were valued at 60 van and weighed 25 to 30 grams each and are basically commemoratives as each contained a poetic verse on the reverse of 4 or 8 characters. They were discontinued at end of the reign of Tu Duc in 1883, but privately made imitations were produced until the mid-20th century. This is a heavier than usual example but metallic composition, casting style and adjustment marks appear contemporary. Image size reduced.
